### Sannati Bhuddist site

#### Educational Legacy:

- Adjacent to the Sannati site lies the ancient Nagavi Ghatikasthan, renowned as the Takshashila of the South.
- This esteemed educational center flourished during the illustrious reigns of the Rashtrakuta and Kalyana Chalukya dynasties, serving as a beacon of knowledge and enlightenment between the 10th and 12th centuries.

#### Context:

- Discovered by the Archaeological Survey of India (ASI) in the 1990s, the Sannati Buddhist site, located near **Kanaganahalli in Karnataka's Kalaburagi district**, underwent significant restoration in **2022**.

#### Key points:

- **Situated along the banks of the Bhima river**, the site is also home to the revered **Chandrala Parameshwari Temple**, adding to its historical and cultural importance.
- Evidence suggests that the **site saw significant development across three distinct phases - during the Maurya, Early Satavahana, and Later Satavahana periods**, spanning from the 3rd century B.C. to the 3rd century A.D.
- Notable findings include an inscription in the **elegant Prakrit language, inscribed using the Brahmi script**.
- Additionally, a stone sculpture portraying **Mauryan Emperor Ashoka**, accompanied by his retinue, stands as a poignant testament to a bygone era. The inscription **"Raya Asoko"** unequivocally identifies the noble figure depicted.
- The archaeological excavation has **unearthed approximately 60 dome slabs adorned with exquisite sculptural motifs**.
- These artifacts depict a **rich tapestry of narratives, including timeless Jataka stories**, episodes from the life of the **Buddha**, portraits of **Shatavahana monarchs**, and representations of esteemed **Buddhist missionaries dispatched by Emperor Ashoka**.

Akashteer system

Context:

- The Indian Army has initiated the deployment of the indigenous **Akashteer system to enhance its air defense capabilities.**
- This system enables **monitoring of low-level airspace in battle zones and effective control of ground-based air defense weapons.**

Key Features:

- Integrates **radar and communication systems into a unified network.**
- Provides **unprecedented situational awareness and control.**
- Enables swift engagement of hostile targets
- Reduces the **risk of fratricide.**
- Ensures safety of friendly aircraft in contested airspace
- Vehicle-based control centers maintain operational capabilities in challenging communication environments

Developed by **Bharat Electronics Limited (BEL), the system aims to automate air defense operations and significantly improve India's air defense posture.** It will enhance operational efficiency and integration by digitizing the entire process.

S.A.R.A.H.

Context:

- The **World Health Organization (WHO) has launched S.A.R.A.H. (Smart AI Resource Assistant for Health), a digital health promoter,** to provide accurate health information and support users in optimizing their health and well-being journey.

Powered by **generative AI, S.A.R.A.H. engages users in dynamic conversations that mimic human interactions.**

Key Features of S.A.R.A.H. include:

- **Language Support:** Available 24/7 in 8 languages for global accessibility.
- **Health Topics:** Covers major health topics such as healthy habits, mental health, and risk factors for leading causes of death.
- **Engagement:** Provides personalized and empathetic responses to users' queries and concerns.
- **Accessibility:** Accessible on any device, enabling users to conveniently engage with health information.

Pelagia noctiluca

Context:

Daily Current Affairs Encyclopedia

- **Venomous jellyfish blooms** were recently observed along the Visakhapatnam coast in Andhra Pradesh.

**Key points:**

- **Pelagia noctiluca**, also known as the mauve stinger, purple-striped jellyfish, or oceanic jelly, derives its name from Latin.
- "Pelagia" means "of the sea," "nocti" means "night," and "luca" means "light."
- In German, it translates to "night light," referring to its reddish color and bioluminescence.
- Pelagia noctiluca is venomous and can cause varying degrees of illness such as diarrhoea, extreme pain, vomiting, and anaphylactic shock. Scars from its stings can remain for years.
- In **January 2024**, a **Pelagia noctiluca bloom was spotted in Phuket, Thailand**, prompting a safety warning. Previously, a bloom had damaged penned salmon at a fish farm in Ireland.

**Kodaikanal Solar Observatory (KSO)**

**Context:**

- The Indian Institute of Astrophysics (IIA) recently celebrated the **125th anniversary of the Kodaikanal Solar Observatory (KSO) on April 1st.**

**Key points:**

- Established in **1899 in Kodaikanal, Tamil Nadu**, the KSO stands as a testament to **India's commitment to solar studies and its impact on global weather patterns.**
- **The idea for such an observatory emerged in the late 19th century**, spurred by the Great Drought of 1875-1877, which underscored the need for understanding **solar dynamics to interpret weather phenomena accurately.**
- Recognizing India's geographical importance, the **Solar Physics Observatory was approved in August 1893**, with the foundation stone laid by Lord Wenlock in 1895. Formal observations commenced on March 14, 1901.

**About:**

- Positioned amidst the **Palani Hills of Tamil Nadu**, the KSO was strategically chosen for its **optimal atmospheric conditions and high-altitude, dust-free environment, facilitating precise solar observations.**
- Over time, the observatory's instrument arsenal evolved, from **early focus on sunspots and solar radiation to the incorporation of advanced tools like the H-alpha telescope and the White Light**

Kerala Regional News

<p><b>No need for food safety license for midday meal in Kerala</b></p>	<p><b>Context:</b></p> <ul style="list-style-type: none"> <li>• The <b>Kerala government recently reversed a decision requiring food safety licenses for schools participating in the midday meal scheme.</b></li> </ul> <p><b>About:</b></p> <ul style="list-style-type: none"> <li>• A recent government order on the matter said the <b>MID Day Meal scheme was being implemented as a statutory and legal provision and hence the food safety license as directed in the Food Safety and Standards (Safe Food and Healthy Diets for School Children) Regulation, 2021, was not necessary.</b></li> <li>• This exemption <b>acknowledges that midday meals are not considered a commercial food business.</b></li> </ul>
<p><b>International Day of Sport for Development and Peace</b></p>	<p><b>Context:</b></p> <ul style="list-style-type: none"> <li>• <b>International Day of Sport for Development and Peace (IDSDP)</b> is celebrated <b>every year on April 6th,</b></li> </ul>

Daily Current Affairs Encyclopedia

- IDSDP recognizes the power of sport to drive positive change.
- It's a day to acknowledge how sports and physical activity can:
  - Promote peace and understanding
  - Foster social development and inclusion
  - Encourage health and well-being

About:

- Creating a historical link to the first modern Olympic Games in 1896, 6 April was declared the International Day of Sport for Development and Peace by the United Nations (UN) General Assembly in 2013, and has been celebrated each year since 2014.

Theme:

- The 2024 theme of IDSDP is "Sport for the Promotion of Peaceful and Inclusive Societies"
- It highlights how sports can bridge divides and create a more peaceful world.
- This day is a chance to celebrate organizations and individuals using sports to make a difference.

Vizhinjam port gets ISPS certification from IMO

Context:

- The Vizhinjam International Seaport in Kerala has been awarded the International Ship and Port Facility Security (ISPS) certification by the International Maritime Organization (IMO).
- This is a significant step towards starting commercial operations, which officials are aiming for by September 2024.

About:

- The ISPS code ensures security measures are in place at ports to prevent incidents like terrorism, piracy, and illegal activities.
- This certification signifies the port meets international security standards

2.77 crore electors eligible to cast votes in Kerala

Context:

- A total of 2.77 crore electors in the state are eligible to cast their votes in the upcoming Lok Sabha elections.
- The number of voters rose by 6.49 lakh when compared to the final electoral roll released on January 22.
- While 2.01 lakh electors were removed from the rolls after verification, the number of young voters in the 18-19 age group rose to 5.34 lakh.

## Daily Current Affairs Encyclopedia

	<ul style="list-style-type: none"> <li>• The voters' list has 1.34 crore male voters, 1.43 female voters and 367 electors in the transgender category.</li> <li>• The male-female ratio in the electoral roll was 1000:1068.</li> <li>• Among districts, Malappuram has the highest number of electors at 33.93 lakh, while Wayanad has the least at 6.35 lakh.</li> <li>• Thiruvananthapuram has the most transgender voters (94).</li> </ul>
<p><b>Samta Diwas</b></p>	<p><b>Key Points:</b></p> <ul style="list-style-type: none"> <li>• <b>Samta Diwas (Harmony Day)</b> is observed on <b>April 5th</b> to honor the birth anniversary of <b>Babu Jagjivan Ram</b>, a prominent Indian politician.</li> <li>• The day emphasizes promoting equality in all aspects of society.</li> <li>• Ram's legacy includes championing the cause of social justice, particularly for disadvantaged groups.</li> </ul> <p><b>About:</b></p> <ul style="list-style-type: none"> <li>• <b>Babu Jagjivan Ram (1908-1986)</b> was a prominent Indian independence activist, politician, and champion of social justice.</li> <li>• Played a key role in the fight for independence, inspired by Mahatma Gandhi.</li> <li>• Held various ministerial positions for over 30 years with the <b>Indian National Congress (INC)</b>.</li> <li>• Notably served as <b>Defence Minister</b> during the <b>1971 Indo-Pakistan War</b>, contributing to the creation of Bangladesh.</li> </ul>
