## White Onion gets GI tags

**Location:** Alibagh (Maharashtra) is known for growing white onion using the traditional method and utilizing geo-climatic conditions for a unique taste, flavour and shape.

A GI is primarily an agricultural, natural or manufactured product (handicrafts and industrial goods) originating from a definite geographical territory.

Typically, such a name conveys an assurance of quality and distinctiveness, which is essentially attributable to the place of its origin.

# White Onion gets GI tags

It can be renewed from time to time for a further period of 10 years each.

In India, Geographical Indications registration is administered by the Geographical Indications of Goods (Registration and Protection) Act, 1999 which came into force with effect in September 2003. The first product in India to be accorded with GI tag was Darjeeling tea in the year 2004-05.

# Modhera Sun Temple

Ahmedabad railway station to get 'Modhera temple' facelift  
The Sun Temple is a Hindu temple dedicated to the solar deity Surya located at Modhera village of Mehsana district, Gujarat, India. It is situated on the bank of the river Pushpavati. It was built after 1026-27 CE during the reign of Bhima I of the Chalukyas dynasty.

- There is a massive rectangular stepped tank called the Surya Kund in front of it, perhaps the grandest temple tank in India.
- Every year, at the time of the equinoxes, the sun shines directly into this central shrine of the temple.
