Minimum Support Price(MSP):

The MSP is the rate at which the government purchases crops from farmers, and is based on a calculation of at least one-and-a-half times the cost of production incurred by the farmers.

MSP is a “minimum price” for any crop that the government considers as remunerative for farmers and hence deserving of “support”.

Minimum Support Price(MSP):

The Commission for Agricultural Costs & Prices (CACP) recommends MSPs for 22 mandated crops and fair and remunerative price (FRP) for sugarcane.

CACP is an attached office of the Ministry of Agriculture and Farmers Welfare.

Minimum Support Price(MSP):

The NITI Aayog (erstwhile Planning Commission) has conducted a study entitled “Efficacy of Minimum Support Prices on farmers”, in 2016.

The study has found, among other things, that MSP declared by the Government has encouraged 78% of the farmers covered under the study for adopting improved methods of farming such as high yielding varieties of seeds, organic manure, chemical fertilizer, pesticides and improved methods of harvesting etc.

Minimum Support Price(MSP):

Government extends price support for paddy and wheat through the Food Corporation of India (FCI) and State Agencies.

Additionally, Oilseeds, pulses and copra of Fair Average Quality (FAQ) are procured from registered farmers under Price Support Scheme of the Umbrella Scheme of Pradhan Mantri Annadata Aay SanraksHan Abhiyan (PM-AASHA), as per its prescribed guidelines.
