Daily Current Affairs Encyclopedia

- He also instructed **officials to finish the installation of Interactive Flat Panels (IFPs) in all schools by the third week of December** and provide broadband connections to all schools.
- He also urged them to **take steps to distribute Vidya Kanuka kits** to students before the schools reopen.

Interactive Flat Panels (IFPs)

Context:

- **Interactive Flat Panels (IFPs) are large touch-sensitive displays** that are becoming increasingly popular in schools.
- They offer a variety of benefits over traditional whiteboards and projectors, including:
- **Increased engagement:** IFPs can make lessons more engaging and interactive by allowing students to write, draw, and manipulate objects on the screen.
- **Improved collaboration:** IFPs can be used to facilitate collaboration between students and teachers. Students can work together on projects, and teachers can share resources and ideas with the entire class.
- **Enhanced accessibility:** IFPs can be used to accommodate students with disabilities, such as those with visual impairments.
- **Reduced costs:** IFPs can save schools money in the long run by reducing the need for traditional whiteboards, projectors, and markers.
