Deep Fakes

Context

- The Ministry of Electronics and Information Technology has send another advisory to social media firms to comply with the **Information Technology (Intermediary Guidelines and Digital Media Ethics Code) Rules, 2021**.
- The advisory is aimed at getting social media firms to crack down more forcefully on fabricated 'deepfake' clips of people made with artificial intelligence.

About deep fakes

- Deepfakes are **fake content in the form of videos, pictures and audio** which are created using powerful artificial intelligence tools.
- The origin of the word "**deepfake**" **can be traced back to 2017** when a Reddit user, with the username "deepfakes", posted explicit videos of celebrities.
- The technology involves modifying or creating images and videos using a machine learning technique called **generative adversarial network (GAN)**.
- This AI-driven software detects and learns the subjects' movements and facial expressions from the source material and then duplicates these in another video or image.
